IMPORTANT NOTICE REGARDING WATERMELON FRUIT BLOTCH
This seed lot has been tested for the presence of seed-borne bacterial fruit blotch (*Acidovorax avanae* subsp. *Citrulli*), a bacterial disease which can be transmitted through water, seed, implements, transplants, or cultural practices. No symptoms of this disease were found in the seed tested. Note, however, that no seed pathology test can conclusively detect all pathogens, which may be present in a given seed lot.
