Data and disease ratings are an average of results from various test locations. It is not a prediction of future performance, but a summary of past results. Your performance will vary depending on the actual environment, pathogen strain and management conditions of your field. You must read and understand the Harris Moran Limitation of Warranty and Liability (found at [www.harrismoran.com](http://www.harrismoran.com)) before using this product.

## Nomad F1

Relative maturity	Fruit weight	Fruit shape	Rind	Flesh color
early	16-21 lb	round	medium green stripes	red

### Disease resistance (R=Resistant, IR=Intermediate resistance)

Rating	Common name	Abbreviation	Pathogen/Causal Agent
R	Anthracoze	Co (1)	<i>Colletotrichum orbiculare</i> race 1

**Warning:** Various environmental stresses can cause Nomad Watermelon to produce few to many hard and dark colored seed coats. This may lead to loss of yield and income. Please read the Harris Moran Limitation of Warranty and Liability before planting this seed.

**IMPORTANT NOTICE REGARDING WATERMELON FRUIT BLOTCH**  
This seed lot has been tested for the presence of seed-borne bacterial fruit blotch (*Acidovorax avenae* subsp. *Citrulli*), a bacterial disease which can be transmitted through water, seed, implements, transplants, or cultural practices. No symptoms of this disease were found in the seed tested. Note, however, that no seed pathology test can conclusively detect all pathogens, which may be present in a given seed lot.

SELLER DOES NOT WARRANT THAT THIS SEED LOT IS COMPLETELY FREE OF FRUIT BLOTCH. ALL WARRANTIES EXPRESS OR IMPLIED, INCLUDING WARRANTY OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE DISCLAIMED.
