Sugar Baby	early	round	10-14	thin, dark green	deep red	medium		

IMPORTANT NOTICE REGARDING WATERMELON FRUIT BLOTCH

This seed lot has been tested for the presence of seed-borne bacterial fruit blotch (*Acidovorax avanae* subsp. *Citrulli*), a bacterial disease which can be transmitted through water, seed, implements, transplants, or cultural practices. No symptoms of this disease were found in the seed tested. Note, however, that no seed pathology test can conclusively detect all pathogens, which may be present in a given seed lot.

SELLER DOES NOT WARRANT THAT THIS SEED LOT IS COMPLETELY FREE OF FRUIT BLOTCH. ALL WARRANTIES EXPRESS OR IMPLIED, INCLUDING WARRANTY OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE DISCLAIMED.

Warning: Various environmental stresses can cause Nomad Watermelon to produce few to many hard and dark colored seed coats. This may lead to loss of yield and income. Please read the Harris Moran Limitation of Warranty and Liability before planting this seed.

Notice: Seedless watermelon may contain an occasional seed.

As a condition of purchase, you will be asked to agree to the Harris Moran Offer to Purchase Watermelon Seed. Visit www.harrismoran.com for a complete copy of the form.

Harris Moran Seed Company - PO Box 4938, Modesto, CA 95352, USA - Phone: 209.579.7333 - Web: www.harrismoran.com

Data and disease ratings are an average of results from various test locations. It is not a prediction of future performance, but a summary of past results. Your performance will vary depending on the actual environment, pathogen strain and management conditions of your field. You must read and understand the Harris Moran Limitation of Warranty and Liability (found at www.harrismoran.com) before using this product.
